

# NEMA 4X NX Series

The NX series is designed for use in non-hazardous and/or wet locations that are subject to wind-driven rain, splashing or spraying water and corrosive environments normally associated with salt water. Ideal for parking garages, car washes and food processing plants.

### ORDERING INFORMATION

SERIES	6 VOLT SYSTEMS (A)		
	1½ hrs	2 hrs	3 hrs
C-NX-6-18	16	12	-
C-NX-6-32	32	25	17

SERIES	12 VOLT SYSTEMS (B)		
	1½ hrs	2 hrs	3 hrs
D-NX-1236	36	24	12
D-NX-1254	54	41	29
D-NX-6-72	72	50	35
D-NX-6-100	100	78	50
D-NX-12-68	72	50	35
D-NX-12-100	100	78	50

#### LAMPS— Units supplied with 2 heads

6 Volt systems are standard with two 12 watt lamps.  
12 volt systems are standard with two 12 watt lamps.  
Other lamps are available by special order, consult factory

#### OPTIONS (please specify)

-0H	No heads
-1H	One head only
-3H	Three heads on D-NX only
-TD	Time delay module
-P	Plastic shatterproof lenses
-HTR	Heater and thermostat
-SD	Self diagnostics

#### OPERATION

Whenever the normal power fails, the unit will automatically transfer to emergency and connect the battery to the lamp heads. When normal power is restored the unit will automatically recharge the battery.

#### FEATURES - NX SERIES

- Specially designed high efficiency 12 watt HIT lamps provide the emergency lighting. These PAR 36 lamps provide illumination for minimum of 90 minutes.
- Dual 120/277volt input is standard. Other voltages on request.
- The solid state charging technology is current limited, and is provided with low voltage disconnect, AC lockout, overload and short circuit and brownout protection. A rubber booted and gasketed test switch and charge light are provided.
- Premium, maintenance-free valve regulated lead acid battery is standard.
- NEMA 4X gray fiberglass enclosure is standard for the environment.

#### AGENCY APPROVALS

ETL Listed to UL924.  
Meets or exceeds the requirements of the National Electrical Code and NFPA 101 Life Safety Code.

#### WARRANTY
